Write Winning Grant Proposals

The Office of Sponsored Projects is pleased to announce a seminar for faculty, professional research staff, postdoctoral fellows, graduate students, and research administrators.

April 2, 2018
POB 2.302 (Avaya Auditorium)

Sign-In 7:30 a.m. – 8:30 a.m.
Seminar 8:30 a.m. – 4:30 p.m.

Dr. John D. Robertson is the Managing Member with Grant Writers’ Seminars and Workshops, an organization founded by academicians for academicians seeking research funding.

He received his doctoral degree in 1999 from The University of Texas at Austin in Pharmacology and Toxicology.

From 1999-2003 he served as a postdoctoral research fellow at the Karolinska Institute in Stockholm, Sweden.

For seven years, he served as a faculty member in the Department of Pharmacology, Toxicology and Therapeutics at the University of Kansas Medical Center, and was an associate member of the University of Kansas Cancer Center for six years. In 2010, he was recruited to teach grantsmanship by Grant Writers’ Seminars and Workshops.

Dr. Robertson has been the recipient of competitive extramural funding from the NIH and non-federal sources. He has authored 30 peer-reviewed journal articles and three book chapters. He has been a member of grant review panels, a reviewer for biomedical journals, and has served on editorial boards. In addition, he has routinely recognized for excellence in teaching.

April 2, 2018 seminar: Write Winning Grant Proposals
This widely acclaimed seminar comprehensively addresses both practical and conceptual aspects that are important to proposal-writing success and is designed for faculty members and administrative staff who have had some exposure to writing grant applications, either through training/mentoring or personal experience.

Emphasis is given to such things as idea development, identification of the most appropriate granting agency, how to write for reviewers, and tips and strategies that are of proven value in presenting an applicant’s case to reviewers. Participants are taught to organize their presentations using a linear progression of logic, which leads reviewers through their applications.
